PIMS FROG Support

Support for the FROG assessment has been added to PIMS in version 9.1.2. For any participant, you can choose whether to use the Parent Survey or the FROG. They both use the same space on the Assessment screen. Full support for the Parent Survey will continue to be available in PIMS. Either assessment, or both, can be used.

By default, PIMS will continue to show you the Parent Survey questions. When your site is ready to use the FROG as the default assessment tool, go into the Site Definitions and change the "Assessment to Use" to FROG (see screenshot). This will make it show the FROG as the default assessment for any new assessments. You can still switch individual participants to the Parent Survey if needed. When you open existing assessments, it will automatically show you whichever assessment was used for that participant.

On the assessment screen a new option for "Virtual" has been added:

On the assessment screen you'll see a radio button that selects between the Parent Survey and the FROG. Once you've changed your site definition to use the FROG, it will automatically select it here.

When "FROG" is selected, you'll see the FROG questions appear instead of the Parent Survey questions. Remember that when entering data, such as the assessment responses, you can just type the first letter of the response (e.g. 1 for "1 Mild") and then hit tab to go to the next one. You don't need to pull down the selection list with your mouse.

Assessment of Mother

Assessment Method: Virtual

Use Assessment Type ○ PS/FSC ● FROG

FROG Assessment

1 - Family Environment	0 None	8 - Behavioral Health	1 Mild	
2 - Perception of the child	1 Mild	9 - Mental Health	1 Mild	
3 - Infant and Child Development	2 Moderate	10 - Other Stressors	0 None	
4 - Plans for Discipline	3 Significant	11 - Social connections	0 None	
5 - Child Protective Service	4 Extreme	12 - Intimate Partner Support	1 Mild	
6 - Positive Childhood Experiences	-9 Unknown	13 - Int. Partner Conflict Mgmt	2 Moderate	
7 - Stressful Childhood Experiences	3 Significant	14 - Concrete Support Services	3 Significant	

Responses: 13   Total Score: 21

The additional caregiver section changes to match the "PS/FSC vs FROG" selection as well.

FROG Assessment - Additional Caregiver

1 - Family Environment		8 - Behavioral Health	
2 - Perception of the child		9 - Mental Health	
3 - Infant and Child Development		10 - Other Stressors	
4 - Plans for Discipline		11 - Social connections	
5 - Child Protective Service		12 - Intimate Partner Support	
6 - Positive Childhood Experiences		13 - Int. Partner Conflict Mgmt	
7 - Stressful Childhood Experiences		14 - Concrete Support Services	

☐ Was obtained directly from the additional caregiver?   Responses: ___   Total Score: ___

The FROG assessment has also been added to report rpt07 – "Service Acceptance Analysis: Accepting vs Refusing Services". The risk ranges may change once final guidance comes out from HFA.

	Accept Rate	Overall		Accepting Services		Refusing Services	
		N	%	N	%	N	%
FROG Assessment							
Missing Data	100%	1	33%	1	33%	0	0%
0 to 14 (low risk)	0%		0%	0	0%	0	0%
15 to 30 (moderate risk)	100%	1	33%	1	33%	0	0%
31+ (significant risk)	100%	1	33%	1	33%	0	0%
Total Participants		3	100%	3	100%	0	100%

The FROG data fields are available in Custom Queries.
