This report lists, for each child, the latest outcome checkpoints for each outcome tool. Following is a description of each column:

- **Last Checkpoint** is the latest checkpoint reached for each outcome for each child, up to the **Cutoff Date** or the **Latest Home Visit Date**, whichever occurs first.
- **Checkpoint Date** is the actual date of the latest checkpoint, based on the checkpoint schedule and the baseline date for this outcome, as defined in Site Definitions -> Outcome Instrument Definitions.
- **# Screens Expected** is the **Minimum # of Screens Due by this time** as defined in the **Outcome Instrument Checkpoints Form**.

- **# Screens Completed on Time** is the number of screens due up to the date of the checkpoint.
- **# Screens Completed to Date** is the number of screens completed, regardless of date, even if it's after the cutoff date.

Summary by Latest Checkpoint

For each child, this takes the latest checkpoint required for them. This essentially summarizes the individual checkpoint status of each child in PIMS56.

The columns are similar to the section above. The difference is that each child is only counted for the latest checkpoint they have reached.
